

KESOBA LEGACY APPEAL

Why not commemorate your time at School with a Brass Plaque?

The Denis Dyson Science Building was opened 4 years ago and provides a much needed hi-tech resource for the School. In the foyer of this new block KESOBA has installed a commemorative board. £150 will purchase a brass plaque, 5cmx10cm, which can be engraved to your specification with up to 30 characters (including spaces) over 2 lines. Simply your name on the top line and years at school below is the most popular format, but other details and messages or dedications can be included if you wish.

Your purchase will further recognise "Dicky" Dyson's legacy and your time at KES. You will also be contributing towards an Association Fund which finances projects for the School. These currently include provision of Cricket and Rugby Team Shields for The Levi Fox Hall, theatre equipment, refurbishment of the Fives Court and Mr Dyson's Observatory, and the reintroduction of School Colours.

Our appeal was launched 2 years ago and our sincere thanks go to those who have already donated. It now needs further impetus and we hope you too will want to join your fellow Old Boys with a plaque, or plaques, of your own. Please contact David Young with your booking details or queries:

7 Trinity Street

Stratford upon Avon

Warwickshire

CV37 6BL

Tel: 01789 205668

e-mail: dcmyoung@btopenworld.com

Cheques should be made payable to KES Old Boys' Association.

Your support will be greatly appreciated.
